Dosage Form

Note: Proprietary Name, Established Name, and Dosage Form may be replaced with brand logo, pre-approved by Regulatory Affairs to ensure compliance with labeling regulations.

Design Guidelines for Proprietary and Established Name

Font family Helvetica Neue Std.

Font weight Medium Condensed.

Font size

Proprietary Name capital letter height should be a minimum 85% and a maximum of 120% of the height of the right edge of the green Sunovion Corporate Branding Band.

Height of capital letters in Established Name must be 55% the height of capital letters in Proprietary Name.

Spine: Product Name should be included in a supply description ["00 day supply of Proprietary Name (established name) Dosage Form"]. All text in the supply description should be the same size and no more than 70% of the size of the number(s) in the Strength Statement on spine.

Relational size

The design objective is for the Product Name to have visual prominence over the Sunovion Corporate Branding. The package designer should exercise judgment, adjusting the size of the Product Name or the Sunovion Corporate Branding for a panel where the Proprietary Name guideline of 125% does not achieve the desired result.

Placement

Mandatory: Principal display panel, back panel and at least one inside panel.

Established Name and Dosage Form may appear on the same line or break into two lines as shown above, directly below Proprietary Name. When two lines, spacing from baseline of Established Name to baseline of Dosage Form must be 110% the font size.

Spacing from baseline of Proprietary Name to baseline of Established Name and Dosage Form must be at least 120% the font size of Established Name. Address any descenders in Proprietary Name either by adding extra line spacing or careful kerning.

Spacing from baseline of Professional Sample Statement (or NDC Number if no Professional Sample Statement) to baseline of Proprietary Name should be a minimum of 150% of the font size of Proprietary Name.

Spine: Left aligned, centered vertically.

Margins

Margins from all edges of blister wallet panels must range from 1/8" (3 mm; 9 points) to 1/4" (6 mm; 18 points).

Color

Light background color: Black.

Dark background color: Reverse to white. Font weight should change to Bold.
